Technical Skills

Web Technologies:

- HTML5, CSS, JavaScript.
- Bootstrap, Tailwind CSS.
- Django, Flask

Programming languages:

- Python
- JavaScript
- C/C++

Database:

- SQL
- SQLite

Other Skills:

- Problem Solving, Communication Skill
- GIT, GitHub, SDLC

Projects

My Shopping Cart - ECommerce website: Django, Paytm integration, SQLite, Html, CSS, Bootstrap, JavaScript, jQuery, Python

<https://github.com/mohitpandeycode/My-Shopping-Cart-ECommerce-Website>

09/2023 - 10/2023

A Python Django Website fully functional for Front end and Back end.

- Developed and implemented an intuitive administrator panel using Python for efficient backend operations on a website.
- Implemented Paytm payment gateway integration into a website, enabling seamless purchase transactions for users.
- Designed and developed a user-friendly contact page enabling streamlined communication between users and customer service.
- Designed and implemented a dedicated order tracking page to enable users to monitor their purchased orders efficiently.

Text-Task-Editor - A Text Editor: Django, Python, Html, CSS, Bootstrap, JavaScript

<https://github.com/mohitpandeycode/Mohit-TextTask.Com-A-text-Editor>

08/2023 - 09/2023

Fully functional Python Django website allowing users to edit text in multiple formats.

- Developed a text processing tool capable of removing punctuation from textual data.
- Created a tool enabling the transformation of text formats, converting capital text into smaller case formats
- Engineered a multifunctional text processing tool capable of eliminating newline characters and implementing various text manipulation features.

Facebook Signup Page GUI – Tkinter: Python, Tkinter, OS

<https://github.com/mohitpandeycode/Facebook-Login-Page-GUI-Tkinter>

03/2023 - 04/2023

Development of Fully Functional Facebook Login Page GUI with Tkinter

- Designed and executed a graphical user interface (GUI) enabling login and sign-up functionalities.
- Integrated a system to securely store user login data within a designated system folder.

Training / Courses

Cyber Security and Network

- Completed an intensive 4-week training program focused on Cyber Security and Network at ALTTC Ghaziabad, UP. Acquired hands-on experience and comprehensive insights into network security fundamentals during the training.

Strengths

🏆 Creative Problem Solving

- Utilize creative solutions to tackle challenges, Problem solving ability to solving Coding & general problems.

★ Strong Leadership

- Experienced in effectively leading and mentoring teams, resulting in streamlined project execution and increased efficiency.

💎 Communication Skill

- Proficient in both verbal and written communication, adept complex ideas clearly and concisely. Demonstrated ability to translate technical information into accessible language for all.
